

Payment Provider Notice

Supplement to Armour plan and payment information
Issued October 16, 2026

Who Provides the Payment Service

Payment services are provided by Intuit Payments Inc. for membership-fee payments and employer remittances made through QuickBooks Payments.

Armour Life Solutions LLC provides the memberships and is responsible for discount decisions and discount payments; Intuit does not provide or guarantee those memberships or discounts.

Separate Payment and Payroll Authorizations

A member or employer making a payment through QuickBooks must separately complete the applicable payment authorization. Creating an invoice, receiving this notice, or signing an employer access agreement does not authorize a bank withdrawal or establish recurring Autopay.

For payroll deduction accounts, the employer administers wage deductions under its own lawful payroll process and each employee's separate authorization. The employer's payment to Armour is distinct from deductions from employee wages; this notice does not identify Intuit as the employer's payroll administrator.

Your Membership Remains With Armour

Armour memberships are not insurance. The selected plan's published discount schedule, full terms, signed enrollment record, and applicable payment or payroll authorization continue to govern. This provider-identification notice does not change prices, eligibility, waiting periods, renewal, cancellation, refund rights, or previously signed agreements.
